OUR STORY

Bear Cricket Ltd is an independent cricket equipment company based in West Yorkshire, England with the sole aim to deliver the highest quality products at affordable prices.

Joining the bear pack.

Bear Cricket isn't just about your purchase, it's about becoming part of our cricketing family, sharing and celebrating each other's success in person and on social media. We pride ourselves on our customer service both pre and post sale to ensure you get the correct equipment to help further your game.

Established in 2016 by Adam Brown.

The company was set up to provide hand crafted cricket bats at affordable prices as an alternative to mass produced cricket bats. Master bat makers craft English willow grown in private forests into Bear Cricket bats right here in the UK. In addition, our softs and luggage are manufactured by one of (if not the) world's leading equipment manufacturers.

Tried and tested.

Our products have been designed and tested by high-level cricket coaches and players who have great knowledge in equipment requirements for top level performance, ensuring our products are fit for purpose.

THE TEAM

Adam Brown

Founder

Adam founded Bear Cricket Ltd in 2016. His background is in cricket retail and manufacturing and he is currently working toward his ECB Level 4 coaching qualification. Adam oversees the running of the business and the manufacturing and quality control process.

Dan Hodgson

Teamwear Manager

Dan is an ex-professional cricket for Yorkshire CCC with experience in marketing with global brands such as adidas and Reebok. Dan knows the teamwear requirements of cricket inside out and will be on hand to give dedicated service.

WHY BEAR

SERVICE

You will be assigned a dedicated account manager to guide you through the process, all the way from design concepts to delivery.

ONLINE CLUB SHOP

We will set up a password protected club shop - allowing individual players to order for themselves and taking pressure off club volunteers and managers.

PRICE

Our bespoke range includes all design, logos, sponsors, names and numbers for one price, no additional costs.

DESIGN

You will work with us and our in house designers to produce fully customised designs. No limits on design, logos, sponsors, names or numbers.

MADE IN BRITAIN

Our Bear bespoke range (excluding shorts and skinny trackpants) are manufactured locally, freeing us from long overseas lead time, import issues and allowing individual orders mid-season.

MADE IN BRITAIN

By applying the Made in Britain collective mark to our products and website, we are making it clear to our customers that we manufacture our products right here in the UK, to the very highest standards.

We are proud to announce we have joined Made in Britain which brings together the British manufacturing community, united with the use of the registered collective mark. Made in Britain is a fast-growing community of like-minded manufacturers.

With our production carried out locally, we are able to oversee the process in person and ensure quality is to the high standards we set in order to be a part of Made In Britain.

Our Bear bespoke range (excluding shorts and skinny trackpants) is produced from scratch in our West Yorkshire factory. Local production frees us from Brexit related import issues and customs delays. It also allows us to provide a flexible service with individual orders made mid-season through our online club shops, rather than limiting clubs to bulk orders pre-season.

"THE MARK IS PROTECTED AND CAN ONLY BE USED BY MEMBERS OF MADE IN BRITAIN THAT MEET SET CRITERIA FOR QUALITY."

“We needed everything. Playing shirts, jumpers, training kit, caps, hoodies, the lot ... having the same kit across the entire club and returning to maroon has made us look much more professional. Being able to have the juniors and seniors in the same training gear really adds to the family feel of the club too.”

Ross Monaghan - 2nd XI Captain East Bierley CC

“We wanted to produce something truly special for our one-off 150th anniversary playing shirt. After one look at the Bear kit we decided we wanted a whole new range. We’ve been able to customise every last detail, meaning we aren’t locked in to off-the-shelf colours of combinations.”

Charlie Baker - Oakham CC

“We ordered around twenty bespoke traditional caps through Bear. They were absolutely superb at managing the process from end-to-end. They got the club colours spot on and the quality is next level. We’ll be back!”

James Binns - Vice Captain Chedworth CC

TESTIMONIALS

TESTIMONIALS

“We’ve been delighted with the level of service from Bear, all stemming from the relationship with Adam and Dan. They have been diligent in their work, flexible with our many requests and alterations, and have clearly taken pride in ensuring we are happy. The kit is brilliant value too.”

Matt Tavare - Chairman Kirkstall Educational CC

“I can’t speak highly enough of the customer service that Bear Cricket have provided our Leeds Beckett University squad. The team wear is of a high quality and the time it takes to turn around is second to none. The biggest compliment that we could give is that we felt valued as a customer as all of our personal needs were consistently met.”

Tom Craddock - Head Coach Leeds Beckett Mens CC

“We have dealt with Bear Cricket as a cricket kit supplier/ manufacturer for several years. During that time we have had white and coloured playing kit, training kit and leisure wear. We have found Bear to be innovative in their designs, prompt in terms of replying to questions and queries, and efficient in terms of delivering the goods. Adam has been thoroughly professional to deal with and the service first class.”

Chris Frogett - Chairman Wakefield Thornes CC

HOW IT WORKS

1. BRIEF

To get the ball rolling, send your requirements to teamwear@bearcricket.co.uk. Let us know the items of kit you need, and send your club colours and club/sponsor logos in vector format (ai. or EPS). We will contact you to set up an initial meeting which can be face to face, or by phone or video call.

3. DESIGN

Designs can be completely customised to incorporate your club colours and unlimited logos, sponsors, initials, names and numbers. Our designers will create visuals in 3D to show how your kit will come to life. After feedback, amends will be made before applying the final design across your full range.

5. ORDERS

An initial bulk order deadline and delivery deadline will be decided once the club shop is up and running. Individual members can place and pay for orders online, saving club volunteers having to collate orders and payment. After the initial bulk order deadline, individual orders can be placed throughout the season with no minimum order quantities.

2. INITIAL MEETING

In the initial meeting we will answer any questions you have, show you samples and discuss designs. If you have any design ideas we are happy to hear them, or we can create designs from scratch.

4. CLUB SHOP

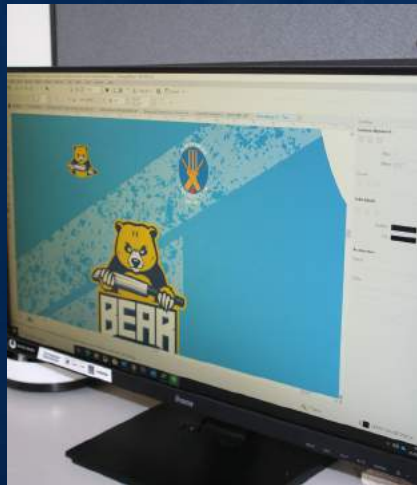

Once designs are approved, we will set up a club shop on our website for your members to access individually.

PRODUCTION

1. DESIGN

Our experienced in house design team will work alongside your club to bring your design ideas to life using the latest design software. When you are happy with the design a visual CAD file will be sent through for final approval, once confirmed the order then moves to the print stage.

2. PRINT

The designs on each section of the garment are printed onto special paper using our large format digital printers.

3. FABRIC

Plain white polyester fabric is cut to size for each section of the garment in each size for the required quantities.

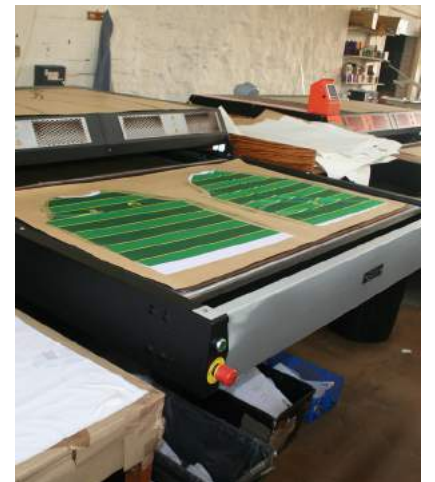

4. SUBLIMATE

The printed paper designs are laid on top of the fabric cuts and put into the heat transfer press. The inks turn into gas, embedded in the fabric rather than simply laying on top like a normal print, making it less prone to fading. The heat opens up the pores of the fabric, then with the applied pressure the ink cools and returns to a solid form. The outcome is a permanent, full colour image that won't crack, peel or wash away.

5. MAKE-UP

Our team of highly skilled and experienced machinists sew each section of the garment together to produce the finished product.

6. QUALITY CHECK

Once the garment has finished in production they are moved to the packing table for a quality check where each individual garment is checked to ensure they meet the quality standards we pride ourselves on. Once the quality check has been passed it is then packed and shipped.

THE BEAR RESPONSIBLE RANGE

SHORT SLEEVE PLAYING SHIRT

Junior £30.00 | Senior £35.00

Our sublimated Shirts have a classic button structure and larger eyelet weave to enhance comfort and wear. It provides a long wearing yet lightweight shirt which is also pre-treated with anti-bac and adds to its quick drying nature.
